April CEO Message

The Power Behind Your Power

Craig Gates
General Manager/CEO

You have probably seen Hill County Electric's crews out in the field or working on power lines. It is no secret that a lineman's job is tough, but their job is essential and must be done, often in challenging conditions. Linemen are committed to their career. It is not just a job; it is a lifestyle. The long hours and dangerous conditions present every day can take a toll. Their job is listed as one of the top 10 most dangerous jobs in the U.S.

During severe weather events that bring power outages, HCE's linemen are usually the first ones called. The families of our linemen are an important part of the HCE team. They understand the importance of getting the power back on for our members. Thank you to the families of our HCE crew.

Left to Right: Warren, Katie, Shane, Teresa, Jim and Jenni.

**COMMITTED TO THE JOB.
COMMITTED TO SAFETY.
COMMITTED TO YOU, OUR MEMBERS.**

Lineman Appreciation Day - April 11, 2022

There are approximately 120,000 electric line workers nationwide. At HCE, we have ten Electric Linemen, two electricians, plus the office crew they work closely with every day. This team works to keep power flowing 24/7, 365 days a year. To do this, HCE's Linemen maintain 3,334 miles of line across five counties, serving approximately 3,887 meters. It is a team effort.

Being a lineman is not a "glamorous" job; however, it is essential to the life of our community, our state, and our country. Without the dedication and commitment of our hardworking linemen and team we would not have the reliable electricity needed for everyday life.

Please join us as we recognize Dakota, Jake I, Jake W, Jorden, Josh, Kris, Russell, Tad, Trevor and Wes, our hardworking Linemen, on April 11th for Lineman Appreciation Day!

HCE Happenings

Last month, Hill County Electric (HCE) had approximately 1,795 account hours affected by outages. Of these hours:

Attention Irrigation Consumers

Irrigation account prepayment billing should have been received around March 2nd. Once your account is paid in full, our servicemen will be happy to connect your irrigation account when they are in the area. If you need your account connected on a specific date, please call the HCE office to schedule a time. If our serviceman needs to make a special trip, a connection fee of \$25 will be billed per meter.

Per our tariff, HCE disconnects irrigation accounts between October 25th and 31st.

Please contact Teresa Jensen in the HCE office at 406-394-7804 or 1-877-394-7804 with any questions.

ALERT TODAY, ALIVE TOMORROW: HEADS UP FOR FARM SAFETY

Stay safe around downed power lines. Consider all lines, equipment and conductors to be live and dangerous.

If you are inside farm machinery that makes contact with a downed power line, know what to do!

If you can drive safely away from the power source without bringing down the utility pole and lines, travel at least 40 ft. before exiting.

If you are unable to drive the machinery due to injury, obstacles or it is inoperable, do NOT exit. Call for help and warn anyone nearby NOT to approach.

If the vehicle is on fire, or you must exit for other safety reasons, follow these steps:

1. Jump clear of the vehicle. Do not let any part of your body or clothes touch the ground and the machinery at the same time.
2. Land with feet together and hop away in small steps to minimize the path of electric current and avoid electric shock.
3. Keep going until you are at least 40 ft. away.
4. Call for help. Make sure no one gets within 40 ft. of the downed line.
5. Do not re-enter the area or vehicle until emergency responders and your electric co-op crews determine it is safe.

DO YOU KNOW ABOUT LINEWORKERS?

Every April, we celebrate lineworkers and the hard work they do to make sure we have electricity to power our lives.

How much do you know about lineworkers?

Take the quiz below to find out!

(Use the answer key to check your work.)

1. Lineworkers have to wear a lot of gear to do their jobs. A lineworker's gear can weigh up to _____.
a. 15 pounds b. 50 pounds c. 80 pounds
2. Lineworkers maintain and repair electrical lines, but they do not install them.
a. True (no installation) b. False (They maintain, repair *and* install lines.)
3. There are approximately _____ lineworkers in the United States.
a. 50,000 b. 90,000 c. 120,000
4. Lineworkers must wear _____ clothing to protect them from a possible electric arc while working.
a. fire resistant b. extra thick c. leather or rubber
5. Lineworkers must wear special conductive boots when climbing a steel structure.
a. True b. False

Answer Key: 1) b. 50 pounds 2) b. False 3) c. 120,000 4) a. fire resistant 5) a. True

Collection includes Semi-Truck and Tractor-Trailer; Jeep and boat; Sound Machine Pickup; Semi-Truck trailer; Sound Machine Semi-Trailer. All in original collector boxes. Call 406.262.3392 for more information and pricing.

Swap & Shop is a classified advertising section of the Triangle Communications and Hill County Electric websites and newsletters. It is maintained as a service to customers and communities wanting to buy, sell and announce non-commercial items. To have an ad included, simply enter all the pertinent information on the online form. An administrator will review the information within two business days and if approved, the ad will then appear. It will stay online for 60 days unless you notify us to remove or change it. It will also appear in any of the newsletters printed during that 60 day window. Triangle reserves the right to abbreviate ads and if the section is full, we will display ads on a first come, first-served basis. If you're unable to enter your ad online you may mail or e-mail it to us using the contact info inside the front cover of this magazine. Happy swapping and shopping.
